

# Flow4UBattery Event: Pioneering Energy Storage Solutions

**April 8 & 9**

**TU/e Campus**

Flow batteries are a breakthrough technology that decouples energy storage from power generation, facilitating scalable and customizable solutions for various storage needs. The potential durability, safety, efficiency, and sustainability of the flow batteries make them part of the future energy storage solution. Become a pioneer in energy storage, register now!

- » Lab tours
- » Workshops
- » Engaging Experts
- » Networking

**Free registration, lunch & drinks!**

**Day 1**  *De Zwarte Doos*

9:15 - 18:30

In-Depth Scientific Talks, Discussions & Poster Session

**Day 2**  *Senaatszaal & Helix*

9:15 - 18:00

Demonstrations, Hands-on Workshops & Lab Tours

**Program  
Info &  
Registration**

**Guest Speakers**

- **Prof. Dr. Roswitha Zeis**  
*Helmholtz Institute Ulm*
- **Dr. Ing. Maik Becker**  
*TU Clausthal*
- **Dr. Ir. David Vermaas**  
*TU Delft*
- **Dr. Ir. Maarten Voors**  
*Wageningen University*
- **Dr. Evan Zhao**  
*Radboud University*
- **Dr. Giacomo Marini**  
*University di Padova*
- **Dr. Ir. Antoni Forner-Cuenca**  
*TU/e*

**... & more**
